[Learn more](#)

TCS is a dental manufacturing company dedicated to providing dental laboratories with exceptional quality materials, equipment, and hands-on training courses that are accessible and reliable. At the core of our brand, we believe that one of the key components to creating successful removable appliances is through forming strong partnerships, because for **TCS**, manufacturing is more than just a business, it is a collectivist culture.

2000

Founded in CA, USA

3

Generations

70+

Countries we sell to

The TCS Experience

Our partnership at a glance

Dynamism

An energetic and passionate team moves forward together and constantly progresses to add value to our customers.

Education

Outstanding technical support and online training designed to grow confidence in creating exceptional TCS dental appliances.

Innovation

A philosophy to continuous improvement guides us to develop better methods, tools, materials, educational programs, etc.

Manufacturing In-House

The majority of our products, including our resins and equipment are manufactured in-house in CA, USA.

Together We Smile - TCS Charitable Events

Our industry is fortunate to be part of a community where giving back literally means putting smiles on people's faces.

Win - Win Philosophy

Your success is our success. We aim for long term relationships based on mutual trust, respect and benefit.

UnbreakableTM

Nylon thermoplastic with unbeatable strength

Unbreakable™

TCS resins are available in bulk or aluminum cartridges that come in various sizes/diameters.

Be sure to order the correct diameter cartridge to fit your injection unit.

Millable discs available for CAD/CAM – Refer to pages 18-19.

KaradentTM

An upgrade from acrylic without compromising stability

- Semi-rigid, microcrystalline polymer thermoplastic.
- Ideal for full dentures, semi-flexible partial dentures, clear clasps, frameworks, and nightguards.
- An upgrade from traditional acrylic dentures yet as simple to finish and polish.
- Finishes completely transparent in our Clear shade.
- A modern fit, lightweight and durable.

- Digital technology allows for ultimate precision.
- Appliances come out with a smooth surface making them faster and easier to polish.
- Polishing process is quick (approx. 2 minutes).
- Milling an appliance from a disc is kinder on your tools.

TCS Injection Units

TCS offers a variety of injection units to fit laboratories preferences and budget. View below a few programs available to you.

Equipment Rental Program

Not sure which injection system is right for you?

Get to know TCS injector units before making the investment and avoid the risk of paying restocking fees. Our reasonably priced rental program allows you to test a TCS workflow in your lab for 20 business days.

Get rewarded for smart shopping. Purchase a TCS injection unit (with any authorized distributor) within three months of your rental period and you'll receive free material. USA customers only.

TCS Hydraulic Injector

- Equal pressure with every injection
- Minimal maintenance
- No air connections required
- Requires an external heater (TCS Digital Furnace)
- 2 years warranty
- Made in USA

SPECS:

Yields approx. 30 cases per day (up to 120 cases with additional furnaces)

H: 22" L: 11" W: 6.5".
50 lbs. (23 kilos)

NOTE:

Used in conjunction with the TCS Digital Furnace. Sold separately.

3504-01	Injector only 110V
3504-02	Injector only 220V

TCS Manual Injector

- Minimal maintenance
- Built to last
- Simple to use
- Requires an external heater (TCS Digital Furnace)
- 2 years warranty
- Made in USA

SPECS:

Yields approx. 30 cases per day (*up to 120 cases with additional furnaces*)

H: 22" L: 22" W: 17"
42 lbs. (19 kilos)

NOTE:

Used in conjunction with the TCS Digital Furnace. Sold separately.

3506-01

Injector only 110V

TCS Automatic Injector

- Compact design with a built-in furnace
- Equal pressure with every injection
- Injects with a touch of a button
- Requires hookup to air pressure (min 140 psi)
- 1 year warranty
- Made in USA

SPECS:

Yields approx. 30 cases per day

H: 23" L: 8" W: 13.5".
40 lbs. (18 kilos).

3525-01	Injector only 110V
3525-02	Injector only 220V

TCS Hydraulic and Manual Injector Basic Kits

Kits include the basic essentials to inject TCS Resins.

1 x Digital Furnace

1 x Cylinder with Handle

1 x Knock Out Rod
1 x Knock Out Stand

1 x Thick Bronze Plug
1 x Thin Bronze Plug

1 x Injection Flask

2 x Cartridges of Each:
Unbreakable™, iFlex™, Karadent™

1 x Mold Release Spray

Hydraulic Basic Kits

3511-01	110V
3511-02	220V

Manual Basic Kits

3508-01	110V
3508-02	220V

TCS Automatic Injector Basic Kits

Kits include the basic essentials to inject TCS Resins.

1 x Injection Flask

2 x Cartridges of Each:
Unbreakable™ and iFlex™

1 x Mold Release Spray

Automatic Air Basic Kits

3528-01	110V
3528-02	220V

TCS Hydraulic and Manual Injector Complete Kits

Includes all the essentials necessary to process TCS Resins.

1 x Digital Furnace

2 x Cylinder with Handle

2 x Injection Flasks

10 pcs. Palate Wax

10 pcs. Lingual Wax

10 pcs. Sprue Wax

3 pcs. 9.5 Sprue Wax

1 x Carving Knife

1 x Cement

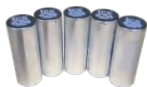

1 x EZ Flow Sample

1 x Mold Release Spray

1 x Fusing Liquid

2 pks x Unbreakable™
2 pks x iFlex™
2 pks x Karadent™

1 x Knock Out Rod
1 x Knock Out Stand

2 x Thick Bronze Plug
1 x Thin Bronze Plug

1 x Rubberized Abrasive 304
1 x Rubberized Abrasive 306

Hydraulic Complete Kits

3501-01	110V
3501-02	220V

1 x Hot Air Welder

Twist Drill Samples

TCS Putty (400 gms)

10 x Pink Grinding Wheels

4 x Rag Buffs

1 lb Polycril

2 x Mini Fuzz Buffs

1 x Turbo Buff

10 x Brown Rubber Wheels

5 x Green Mounted Stones

1 x Pink Zirconia Coarse Bur

2 x Large Rubber Points
2 x Small Rubber Points

Sample Pieces of
Polishing Paste

1 x Sample Model
Upon Request

Manual Complete Kits

3505-01	110V
3505-02	220V

Items in the kits may change without prior notice. We strive for continuous improvement, if we discover a product that works better with our resins, we may switch out an item(s).

TCS Automatic Injector Complete Kits.

Includes all the essentials necessary to process TCS Resins.

2 x Injection Flasks

JP90 Handheld Injector

- 1-3 tooth unilaterals
- Up to 5 consecutive tooth partials/saddles, saddles for combination cases
- Repairs
- 2 years warranty
- Made in USA

SPECS:
H: 6" L: 2-1/4" W: 11"
2 lbs. (1 kilo)

7000-JP JP90 Injector only

JP Flask

Fabricated from high precision stainless steel to withstand warpage under extreme heat.

7005-JP

Metal Sprues

Used to create a gateway for injection.

7014-JP

Matrix Pusher

Used to facilitate putty application.

7010-JP

TCS Putty

Used to create a matrix when injecting with the JP90 Handheld Injector. Can also be used to invest for clean injections.

4296-01	Base & Catalyst 400gms ea.
4291-01	Base & Catalyst 1kilo ea.

JP90 Starter Kits

7001-JPU	JP Starter Kit
7020-JPU	JP Starter Kit with Digital Furnace

Digital Furnace & Accessories

- Simple and practical
- Melts thermoplastic resin
- Compact design
- Reliable / low maintenance
- 2 years warranty
- Made in USA

SPECS:
H: 6" L: 1.5" W: 11"
1.3 lbs. (0.6 kilos)

3512-01	110V
3512-02	220V

Melting Cylinder with Handle

Fabricated from high precision stainless steel to withstand warpage under extreme heat.

3703-01

Knock Out Stand and Rod

Steel tools used for purging the melting cylinder from the remaining cartridge and bronze plug after injection.

3705-01	Knock Out Stand
3707-01	Knock Out Rod

Bronze Plugs

Thick bronze plug is used when melting medium and small cartridges in the furnace. Thin bronze plug is used when melting large cartridges in the furnace.

3709-01	Bronze Plug Thin
3712-01	Bronze Plug Thick

Waxes / Flasks

Palate Wax

Save time waxing with pre-formed palates created with the recommended thickness of a TCS palate.

5015-01 **80/box**

Lingual Wax

Pre-formed lingual bars are ideal for clasps, flange, and lingual connector areas.

5020-01 **1 lb**

Sprue Wax

Easy to work with, does not get brittle. Ideal diameter for spruing. 5 gauge.

5025-01 **1 lb**

Sprue Wax 9.5

Connect your sprue wax to the 9.5 Sprue Wax only at the tip of the flask opening to avoid unwanted plaster sticking to it.

5027-01	5 pcs
5026-01	1 lb (~30 pcs)
Each piece yields ~10 injections.	

Injection Flask

Milled from one piece of aluminum block. Extra smooth finish facilitates the de-flasking process. Includes a special knock-out button to simplify case removal and prolong the life of the flask.

3701-01

Pour Flask

Used for acrylic pour technique and/or to duplicate models. Manufactured in light-weight aluminum. Easy to assemble, disassemble and clean.

3650-01

TCS Carving Knife

Excellent for removing extended fibers that sometimes appear when processing TCS partials. Also used to define the necklines of the TCS restorations when necessary.

4201-01	
4202-01	Replacement Blades (12 pcs)

Processing Tools

TCS Cement

To secure teeth in the stone prior to injection. Mild enough to keep teeth from bonding to the stone during injection.

3801-01 1/2 oz

Fusing Liquid

For repairs and additions to existing TCS restorations. The Fusing Liquid is ONLY used when flasking and injecting are necessary.

3812-01 1/2 oz

Mold Release Spray

Colorless and non-staining multi-purpose lubricating spray, used to ease the purging of the furnace accessories and TCS cartridges during injection process.

3814-01 12 oz

Hot Air Welder

Hand torch in a slim design for minor repairs or additions to TCS restorations. Refillable with butane. (Butane not included).

3714-01

Twist Drills

To create the diatoric retention in acrylic teeth necessary for fabricating TCS restorations.

005	5005-01	6 pcs
006	5006-01	6 pcs
009	5009-01	6 pcs
012	5012-01	6 pcs

Empty Cartridges

Empty cartridges are sold in packs of 50

	25mm	28mm	22mm
S	3003-01S	/	/
M	3003-01M	3003-01MF	3003-01M22
L	3003-01L	3003-01LF	3003-01L22

EZ Flow

Separating medium for processing thermoplastics. Eliminates stone sticking to the partial, leaving it shiny and clean.

4217-01	16 oz
4218-01	1 gallon

Finishing Tools

Pink Grinding Wheels

Excellent and economical product for the finishing stage.

4205-01 100/box

Brown Rubber Wheels

Use prior to pumicing in order to obtain a high shine. It is crucial that the entire partial is rubberized and smoothened.

4503-01 100/box

Green Mounted Stones

Used during the finishing stage. Cuts thermoplastics moderately, and leaves a smooth surface. Ideal for minor chairside adjustments.

4501-01 100/box

White Knock Down Chuck

Mandrel used with the White Knock Down Wheel and Rubberized Abrasives.

4212-01

Rubberized Abrasives

Long-lasting wheel for smoothening the partial during the finishing stage.

4304-01	Thin
4306-01	Thick

Brown Rubber Points

Ideal to eliminate scratches and smoothen the surface.

S	4513-01	12 pcs
L	4514-01	12 pcs

Mini Fuzz Buff

Use after the Brown Rubber Wheels to further smoothen partial prior to pumicing.

4222-01 12 pcs

Carbide Bur

Specifically designed to cut thermoplastics. Long-lasting with high cutting efficiency.

50251G-01

Finishing Tools / Polishing Tools

Pink Zirconia Fine Bur

Use during the finishing stage to leave the surface smooth and prepped for the Brown Rubber Wheel. Also, ideal for chairside adjustments. Max RPM= 12,000. Use with a hand piece.

5035Z

Pink Zirconia Coarse Bur

Use during the finishing stage to cut excess material and trim appliance to the desired length. Gross reduction. Max RPM= 16,000. Use with a hand piece

5045Z

TCS Embroidered Apron

Adjustable apron with pockets and embroidered TCS logo.

Apron01

1 pcs

Polycril

An advanced formula for pumicing acrylics and thermoplastics at high-speed.

4298-01

1 lb

Turbo Buff

Pumicing buff with silicone cotton cloth. Use for pumicing only.

4208-01

Rag Buff

Stitched only in the center for the extra softness needed for polishing TCS restorations.

4207-01

Mini Rag Buff

Recommended to dentists for polishing touch-ups after minor adjustments on TCS appliances. Use with Green Hi-Shine polishing paste.

4221-01

12 pcs

Polishing Tools

Brown Tripoli

Use after pumicing to prepare appliance for polishing. Effective for all TCS resins. Use with a dry Rag Buff.

4206-01

2 lbs

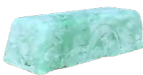

iShine

Use after Brown Tripoli to polish surface of iFlex™ partials (and other polyolefin thermoplastics). Use with a dry Rag Buff.

4220-01

10.75 oz

Green Hi-Shine

Use after Brown Tripoli to polish surface of Karadent™ and Unbreakable™ partials. Use with a dry Rag Buff.

4209-02

1 lb

Dr. Adjustment Kit.*

Ideal for quick and easy chairside adjustments.

4014-02

Covers All the Basics

Covers design, block out, setup, waxing, processing, finishing and polishing.

Basic Training Kit

Kits are available for USA customers only and includes all the basic tools needed to follow along with the course.

Test your Knowledge

Each chapter includes a quiz so you can test how much you've learned.

Certificate of Completion

Receive a digital certificate of completion upon completing the course.

Earn CDT Credits

The training course gets you 2 Scientific CDT credits!

Pricing

\$80

Complete: Includes a Welcome Box containing a variety of tools to follow along with each lesson. Ships to USA only.

\$42

Basic: Access to online training only. Use coupon code BASIC at checkout.

Free

Basic training with purchase of any TCS Injector Kit. Contact sales@tcsdentalinc.com for free access within 30 days of your purchase.

Together We Smile

The Together We Smile-TCS Gives Back Charitable Event is an outreach program that travels to remote areas across the globe to deliver partials and dentures to people in need. Although oral care is available to everyone, those who live on low incomes have no real access to proper oral care and treatment. TCS launched Together We Smile to serve those communities and bring happy smiles whenever we can!

TCS Together We Smile was launched in 2018 with its very first event in the Dominican Republic. TCS teamed up with Jack Meibaum, who runs a charity called Mission Para Los Niños, and prepared a pop-up lab that could treat and fabricate partials and dentures for over 60 people. This same event was repeated in 2019.

After a long break of no events due to the pandemic, the team returned stronger than ever to complete the next Together We Smile event at La Guajira, Colombia. La Guajira is home to Colombia's largest indigenous population, the Wayuu tribe. The Wayuu indigenous communities suffer a poverty rate of roughly 84% with high infant mortality rates, hunger, and a lack of medical and oral health care. Known for their beautiful artisan hand-woven work they struggle to maintain a healthy lifestyle. With more volunteers than ever before, the Together We Smile team got to help restore the smiles of over 50 patients and created over 64 dentures in only one week!

A Committed Team
Together We Smile, 2022
at La Guajira, Colombia

On February 2023, the TCS Together We Smile team completed their fourth mission. The team travelled to San Andres, a coral island in the Caribbean Sea politically part of Colombia and historically tied to the United Kingdom. The Island was declared a UNESCO Biosphere Reserved named "Safflower Biosphere Reserve" to ensure the ecosystem is well preserved. After the 2020 Hurricane Iota, 98% of the Island's infrastructure was damaged. Water and sanitation weakened and health and education installations were left safe for use. The population already suffered a high poverty rate and limited oral care support. The team has prepared all the necessary materials at a nearby clinic, Credident, to create dentures and partials for more than 100 people with low income in need of dentures/partial.

The Together We Smile outreach program thrives today thanks to its collaboration with local dentists, technicians, generous dental suppliers, and our incredible volunteers. with low income in need of dentures/partial.
